**Minutes Meeting Sub-Committee for Alpine Courses in Zurich (SUI)
Tuesday, 24.09.2024, 15:00 – 17:00 hrs CET**

Dear Ski Friends,

We have pleasure sending you today the Minutes of the 118^h meeting of the Sub-Committee for Alpine Courses, held in Zurich (SUI) on September 24th, 2024

You are kindly asked to send any remark to the Chair until November 30st, 2024 (elena.gaja@ecotime.eu)

We would like to take the opportunity of informing you that the Minutes are also available on the Member Services section of the FIS Website.

Thank you very much for your valuable contribution and have a successful and healthy winter season !

Kindest regards,

Elena Gaja des Ambrois
Chair Sub-Committee for Alpine Courses

INTERNATIONAL SKI AND SNOWBOARD FEDERATION Sub-Committee for Alpine Courses

**Minutes Meeting Sub-Committee for Alpine Courses
Zurich (SUI) - Tuesday, 24.09.2024, 15:00 - 17:00 hrs CET**

AGENDA

1. Welcome and opening of the meeting

Elena Gaja (EG) welcomes all members, inspectors, FIS staff and guests and opens the 118th meeting of the S.C. Alpine Courses at 15:00h CET.

Warm congratulations to our colleague Arno Heikkala, who was recently appointed as Chair of the Alpine Rules SubCommittee.

2. Members present

The roll is called, list of excused members was received, see enclosed list of presence.

There are 4 new Inspectors that have completed their education and will be confirmed by the next FIS Council: Santi LOPEZ (AND), Marc MITJANA (AND), Juli SELMA (ESP) and Nikolay BELOKRINKIN (RUS).

3. Approval of the agenda

The Agenda was sent out by email on September 2nd: everybody received it.

The Agenda is unanimously approved.

4. Approval of the minutes of the 117th meeting, held in Portoroz on May 7th, 2024

Minutes were sent out by email on June 1st 2024: no remarks were received so far, nor done during the meeting, therefore the Minutes are unanimously approved.

5. Reports

5.1Chair

Since the meeting in Portoroz on May 7th, only 58 homologation booklets have been received, checked, validated and issued: as usual in autumn the big majority of the pending requests will come be processed in order to be ready for the upcoming winter, so I expect to receive most of the more than 300 missions open so far in the FIS DataBase. Again, as expressed already few times in the past, please note that only the 55% of the open missions have been requested in 2024, therefore there is the 45% of old missions that will have to be confirmed: please check your ToDoList. Missions requested in 2019 and not confirmed will be deleted by default after the current meeting.

Concerning the Request procedure I recall that for a simple and clear procedure it's easier to receive the missions from only one responsible person in each country and that I need the Request Form duly filled, one per each competition course, regardless the number of events: EVERYONE has to fill in the forms, that will be then filed.

As you have noticed, a sustainability questionnaire has been asked to be filled ahead of these technical meetings: if not already done, you can fill it through the QR code you will find at the reception.

Furthermore one important tool FIS will launch very soon during next weeks and offer free of charge to NSAs and Organizers, is a taylor made tool to calculate the carbon footprint of the events: course owners and organizers will be then able to understand the environmental impact of every decision made and to adjust even in the planning phase (pre-event) in order to reduce CO2 emissions of their events.

5. Online Inspection Report Form

Since a while there is a tabled project about replacing the 'multipage .pdf currently in use with

instead an 'online form', in order to upload all data and documents and have those data available for many purposes. The idea is to have a draft version to be tested internally during the next months with the aim to have a final version to analyse and hopefully approve next spring and to be used during next summer.

Based on the past discussions and brainstorming about this matter, EG kept all notes and could be able to put them together in a first draft shown during the meeting: the goal is to verify if everything is included or if something important is missing, to make sure that no essential elements has been forgotten, to decide if the report is detailed enough and finally to define which parts will be mandatory.

Once all elements have been verified, then the FIS IT department will develop a draft form and possibly come up with a different graphic layout.

The current draft includes 5 sections

Section 1:

Race Course Data (Start, Finish, VD, Gender, Length, Gradients, Exceptions, etc)

Infrastructures data (Lift, Snowmaking, AC Power, Timing lines, Internet connections, etc)

Section 2:

Minimum Safety Requirements (Course, Finish, Narrow sections)

Section 3:

Emergency Evacuation Procedures (transportation: where, how, distance, medical facilities, etc)

Section 4:

Attachments (documents provided like plan, profile, pictures, Safety Rep, Environmental Rep, TD additional Rep, etc)

Section 5:

General Information about the Owner (contacts) and about the Inspection (people present at the Inspection, remarks, conclusions, inspection date, inspector, signature, etc)

During the meeting, the form was deeply analysed in all its parts, with the collaboration of the IT people who will have to develop it; all inspectors are encouraged to send to the Chair any remarks, comments or suggestions they may have.

6. Exception's Request

Formalisation of the World Cup Slalom in Hafjell: new SL Vertical Drop will be 225m (5m over the max) only valid for World Cup. Mrs Anne Enstad explained the need following the change of the Start position.

7. Requests for homologation inspections: updated list

List has been shown and discussed.

Reminder: missions older than 2019 and not confirmed will be deleted after the current meeting.

The updated list will be joined to the Minutes.

8. Miscellaneous

Following a question about the symbols to be used when drawing the protections on the competition courses' plans, few details like colors and type of lines have been recalled and suggested (see doc attached):

A net: red solid line

B nets: blue dashed line

B/C nets: orange dashed line

C nets (crowd control nets): green thin dashed line

Mattresses: grey box/rectangle

Obstacles in general (pylons, lift, etc): purple sign

9. Next meeting: FIS Spring Meetings, Vilamoura (POR) from 5th to 9th May 2025

10. Closing of the meeting

EG thanks everybody for the great help, the commitment along the whole season and the very good attendance, wishing everybody a successful and healthy winter.

Meeting is closed at 16:55h CET.
