

SUMMER **2026**

TREKKING

GABEL®

SNAKE CARBON

EN

The recent "Snake Carbon" technology applied to the latest models developed by Gabel combines the excellent resistance of high modulus carbon fibre with a distinctive geometric structure, adding an innovative type of crystallisation technology. This process allowed to make the tubes 20% lighter, as well as boosting resistance by 18%. The combination of HD technologies with these new processes and materials has thus allowed us to introduce an outstanding new product onto the market.

IT

La recente tecnologia "Snake Carbon" applicata agli ultimi modelli sviluppati da Gabel, unisce l'elevata resistenza del tessuto in carbonio ad alto modulo ad una particolare struttura geometrica, abbinata ad una innovativa tecnologia di cristallizzazione. Tale processo ha permesso la riduzione di peso dei tubi di circa il 20%, aumentandone la resistenza del 18%. L'abbinamento, quindi, delle tecnologie HD con questi nuovi processi e materiali, ci ha consentito di introdurre nel mercato una novità di altissimo livello.

DE

Unsere neuentwickelte "Snake Carbon" Technologie verbindet die extrem hohe Widerstandsfähigkeit des Carbon-Gewebes mit hohem Modul mit einer ganz besonderen geometrischen Struktur, kombiniert mit einer innovativen Kristallisierungstechnologie. Dieses Verfahren ermöglicht die Verminderung des Gewichts der Rohre um mehr als 20%, bei gleichzeitiger Verbesserung der Widerstandsfähigkeit um 18%. Die Kombination von HD-Technologien mit neuen Produktionsverfahren und Materialien hat es uns somit ermöglicht eine Neuheit auf höchstem technischem Niveau auf den Markt zu bringen.

N.C.S. STRAP

1

2

3

4

1

Push the plastic edge till the end of the hole (you will hear a click).

Inserire completamente la testa in plastica del passamano nel foro dell'impugnatura (si deve sentire un "click").

Drücken Sie den Kunststoffstift bis zum Ende der Öffnung (Sie werden einen Klick hören).

2

The strap is now fixed.

Il passamano ora è fissato all'impugnatura.

Die Grifffschlaufe ist jetzt fixiert.

3

Release your hand from the pole by pushing the top N.C.S. button.

Premere il pulsante in testa all'impugnatura per rilasciare il passamano N.C.S.

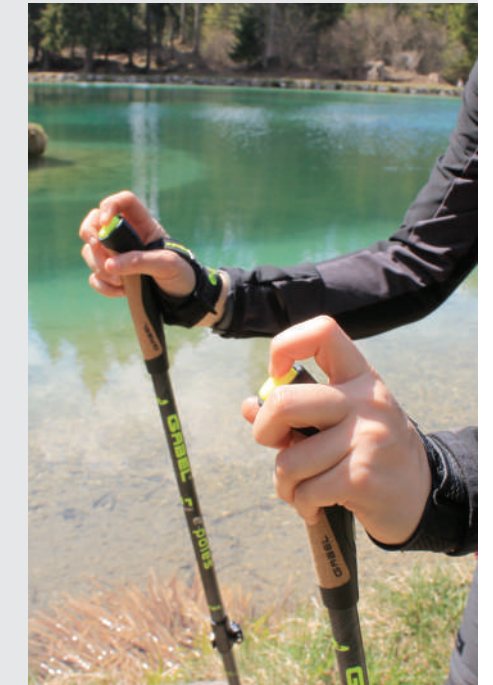

Lösen Sie die Hand aus dem Stock durch drücken des oberen Knopfes.

4

Your hand is now free!

La Vostra mano ora è libera!

Ihrer Hand ist jetzt frei!

N.C.S. GLOVE

EN

NCS SYSTEM: integrated strap and glove. Combining the C.P.S. system with the glove allows levels of comfort hitherto unimaginable, allowing you to push evenly down with your whole hand and thus avoiding stress points. The sensation of lightness and well being facilitates the natural movement of the NW, boosting the athlete's performance.

IT

Sistema integrato lacciolo e guanto con sistema NCS. Con il sistema C.P.S. abbinato al guanto si raggiunge un livello di comfort fino ad ora inimmaginabile. La distribuzione della spinta avviene in modo uniforme su tutta la mano evitando punti di stress fastidiosi. La sensazione di benessere e leggerezza che ne deriva, favorisce

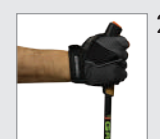

il naturale movimento del NW aumentando conseguentemente la performance di durata del gesto atletico.

DE

Integriertes System Schlaufe und Handschuh mit NCS-System. Durch das mit dem Handschuh kombinierte System C.P.S. wird ein bis jetzt unvorstellbares Niveau an Komfort erreicht. Die Verteilung des Schubs erfolgt gleichmäßig auf der ganzen Hand und vermeidet somit unangenehme Stresspunkte. Das sich daraus ableitende Gefühl des Wohlbefindens und der Leichtigkeit fördert die natürliche Bewegung des NW und erhöht folglich die Ausdauer/Performance des sportlichen Einsatzes.

ANTI IMPACT

ANTI IMPACT
ON/OFF SPRING SYSTEM

EN

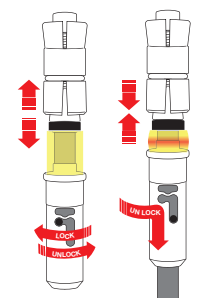

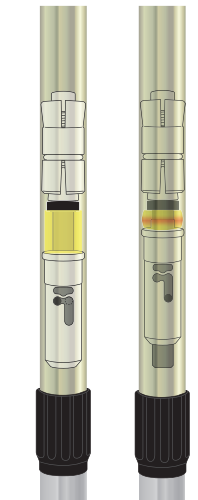

The anti-impact system patented by Gabel absorbs at its maximum and vibrations caused by the collision with the ground and eliminates the transmission of the bad vibrations (lower than 100Hz). Gabel Anti-Impact: the best comfort you can ask for.

IT

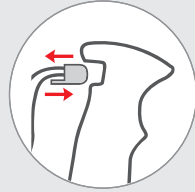

L'Anti-Impact brevettato da Gabel assorbe al massimo gli urti dovuti all'impatto con il terreno, eliminando di fatto la trasmissione delle vibrazioni dannose (inferiori a 100Hz). Gabel Anti-Impact: il comfort al quale è difficile rinunciare.

DE

Das patentierte Gabel Anti-Schlag-System absorbiert maximal die Stöße und Vibrationen, die durch den Kontakt mit dem Boden verursacht werden, indem sie die schlechten Vibrationen (niedriger als 100Hz) eliminieren. Gabel Anti-Impact: Der Comfort, auf den du nicht verzichten kannst.

T.C.S. AUTOMATIC TOP CLICK SYSTEM

EN
A quick-release system allowing simple and secure strap adjustment, and also very easy replacement.

IT
Sistema di sgancio rapido che consente una regolazione semplice e sicura del passamano e ne permette la sostituzione con assoluta facilità.

Dieses Schnellauslösesystem erlaubt eine einfache und sichere Anpassung der Stockschlaufe und zudem einen einfachen Austausch.

REMOVABLE AUTOMATIC STRAP ADJUSTMENT

EN
Pull the strap upwards, in order to open the top part of the grip

IT
Tirare il passamano verso l'alto, in modo da aprire l'inserto nella parte superiore dell'impugnatura

DE
Schlaufe nach oben ziehen und die obere Seite des Griffes öffnen

EN
Pull the top of the strap to enlarge it

IT
Tirare la fibbia superiore del passamano per allungarlo

DE
Den oberen Teil der Schlaufe ziehen = Verlängern !

EN
Pull the lower edge of the strap to make it shorter

IT
Tirare il lembo inferiore per accorciare il passamano

DE
Den unteren Teil der Schlaufe ziehen = Verkürzen !

Waschbare Schlaufe

ERGO FIT

EN
The Ergo Fit grip has been designed with bio-mechanic in mind, for the maximum ergonomics, lightness and practicality. It has been developed to offer the same ergonomic regardless the the hand grip position, fitting every condition. It is also extremely practical, due to the easy adjustment and removal of the washable strap, without any tool, thanks to the TCS (Gabel Patent).

IT
Progettata dopo accurati studi biomeccanici, l'impugnatura Ergo Fit unisce ergonomia, leggerezza e praticità. E' infatti studiata per mantenere la massima ergonomia anche con prese diverse, adattandosi a tutte le situazioni. E' anche estremamente pratica perchè ospita il brevetto Gabel TCS, per regolare e rimuovere il lacciolo lavabile senza alcuno strumento.

DE
Der Ergo Fit Griff wurde unter Berücksichtigung der Biomechanik für maximale Ergonomie, Leichtigkeit und Bequemlichkeit entwickelt. Es wurde entwickelt, um unabhängig von der Handgriffposition die maximale Ergonomie zu bieten und für jede Bedingung geeignet zu sein. Dank des TCS (Gabel Patent) ist es aufgrund der einfachen Einstellung und Entfernung des abwaschbaren.

For those who demand lightness and reliability combined with optimal comfort.
The best in the market for rugged use!
Per chi richiede leggerezza e affidabilità unite ad un comfort eccezionale. I migliori nel mercato per usi estremi.
Für diejenigen, die Leichtigkeit und Verlässlichkeit kombiniert mit sehr gutem Komfort verlangen. Der beste auf dem Markt für einen rauen Einsatz.
Pour ceux qui demandent la légèreté et la fiabilité avec un confort extraordinaire. Les meilleurs sur le marché pour les utilisations extrêmes.
Para los que requieren ligereza y fiabilidad unidas a un confort

For all those situations that require small size and minimum weight. Maximum lightweight for exceptional performance.
Per tutte le situazioni che richiedono peso e dimensioni ridotte al minimo. Massima leggerezza per prestazioni eccezionali.
Für alle diese Situationen in denen ein kleines Packmaß kombiniert mit geringem Gewicht benötigt wird. Ein extremes Leichtgewicht für einen außergewöhnlichen Einsatz.
Pour toutes les situations qui demandent un poids et des dimensions réduits au minimum. La plus grande légèreté pour des performances extraordinaires.

Ideal for frequent users with a need for reliability, strength and durability. The most eclectic of all poles is accessible to everyone!
Uso frequente e bisogno di affidabilità, resistenza e durata nel tempo. Il più eclettico dei bastoncini è accessibile a tutti.
Ideal für den häufigen Gebrauch und Erfordernis an Verlässlichkeit, Stärke und Haltbarkeit. Der Vielseitigste aller Stöcke, der für Jeden erschwinglich ist.
Utilisation fréquente et besoin de fiabilité, résistance et durée dans le temps. Le plus éclectique des bâtons est accessible à tous.

The ideal travel companion for all uses and for all seasons, with an eye for the youngest enthusiasts.
I compagni ideali per tutti gli usi e per tutte le stagioni, con un occhio di riguardo per gli appassionati più giovani.
Der Ideale Reisebegleiter für alle Anwender und für jede Jahreszeit, auch für jugendliche Enthusiasten.
Les compagnons idéals pour toutes les utilisations et pour toutes les saisons, avec une attention particulière pour les amateurs les plus jeunes.

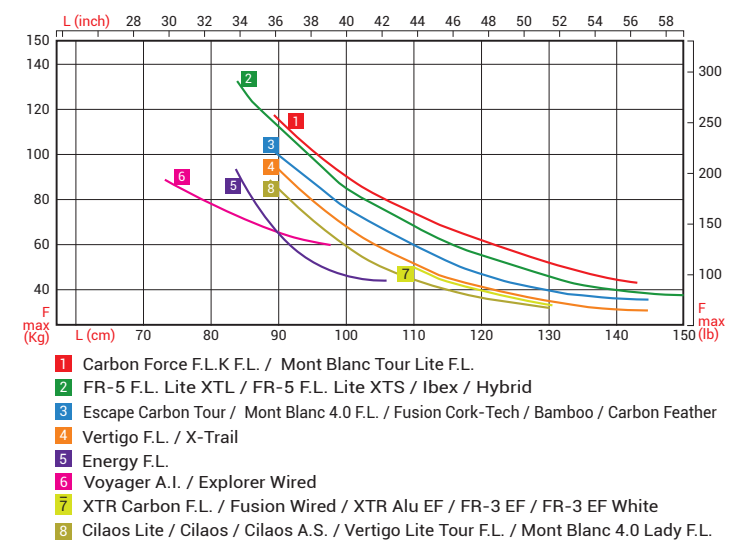

When walking requires maximum safety. The indispensable poles to enjoy outdoor life.
Quando camminare richiede la massima sicurezza. I bastoncini indispensabili per godersi la vita all'aria aperta.
Wenn beim Walken maximale Sicherheit benötigt wird. Der unverzichtbare Stock um das Leben in der Natur zu genießen.
Quand marcher demande la plus grande sécurité. Les bâtons indispensables pour profiter de la vie en plein air.

trekking max loads

The diagrams show the safest maximum axial load (in kilograms and pounds) for the models indicated as a function of extension (in centimeters and inches) and under conditions of correct use (as explained in the Instructions section).
• Under favorable conditions, for a fraction of a second and up to 150 kg (331 lb), the momentary load can exceed the value given by the curves for a given length by up to approximately 20%.
• Although there are cases where the load can exceed 150kg (331 lb), such value should be considered as the practical load limit for safety reasons regarding grips and plastic tips, especially the longer types.
I diagrammi qui a fianco rappresentano il carico assiale massimo (continuo) di sicurezza (in chilogrammi e libbre), per i vari articoli indicati, in funzione dell'estensione (in centimetri e pollici) e sotto le ipotesi d'uso corretto come indicato nel manuale.
• In condizioni favorevoli, per una frazione di secondo e fino a 150 kg (331 lb), il carico momentaneo può superare di circa il 20% il valore dato dalle curve in corrispondenza ad una data lunghezza.
• Sebbene risultino casi con carico superiore a 150 kg (331 lb), tale valore va preso come limite pratico nell'usonormale, per questioni di margine di sicurezza su manopole e puntali in plastica, specie quelli lunghi.
Die Diagramme zeigen die maximale axiale Belastung (in Kilogramm und Pfund) für die einzelnen Modelle. Abhängig von der jeweiligen Länge (in Zentimeter und Inch). Voraussetzung ist, daß die Stöcke laut Gebrauchsanweisung benutzt werden.
• Unter günstigen Bedingungen kann für einen kurzen Moment und bis zu einem Belastungswert von 150 kg (331 lb) dieser Wert um ca. 20% überschritten werden.
• Die Belastungsgrenze von 150 kg (331 lb) soll wegen der Haltbarkeit der Griffe und Spitzen aus Sicherheitsgründen nicht überschritten werden.
